

Maybe it's the nippy morning fog, maybe it's the few days of big fluffy snow flakes, or maybe it's the thought of all that amazing Christmas décor overflowing our stockroom, but as much as I've enjoyed Alberta's 2 weeks of Fall, I'm about ready for a change of season. And what a change we're about to have. So clear your schedules ladies and gentlemen, because we have some exciting events right around the corner. Beginning Sat. Oct. 24th through Sat. Oct. 31st we have our "Please don't make us inventory it" **Seasonal Sale**, with **40% off all Fall and Halloween Décor**. We may not always be able to justify purchasing décor for a such a short season, but "it's on sale!" is always a perfectly justifiable rationalization.

Then we'll give your credit cards a bit of a breather as we will be **CLOSED Nov. 1st through Nov. 6th** in preparation for our, yup, you guessed it.....

Christmas Open House

Saturday Nov. 7th 10am–5pm & Sunday Nov. 8th 11am–5pm

So, grab some girlfriends, and some coffees (because you're going to need the energy), and get yourselves down to The Crock. Yes, there will be line-ups. No, we won't be letting anyone in until 10am sharp. Yes, you can divide the store among your "team" for the most efficient shopping experience. No, you cannot use any techniques learned in your self defense class. Not to get you too excited, but we have more **Christmas décor** than we know what to do with. **All new; all incredible;** and definitely **not to be missed**. Want a sneak peak??? Check out the November issue of Country Sampler Magazine (available at It's A Crock). That's all I'm going to say.

This year will definitely be "mind **BLASTING**"!

Thereafter, we will be open Sundays 12-5pm up until Christmas.

Please note, Prairie Mountain Furniture will also be closed Nov. 4th thru 6th, and will resume regular store hours through the holidays.

And though we may not have enough time to fill and transform the furniture store into your North Pole connection, you will definitely want to stop in and see what we've done. By Sat. Nov. 7th, we will have an **all new Prairie Mountain Furniture** with **all new floor models!** Incredible upholstered sofas and chairs in every style from rustic, lodge, & western to... (dramatic pause) *urban*. No, Sandra hasn't fallen off a ladder and shaken her brain out of place (not yet anyway). We want you to see our versatility, and experience the **full range of styles** we have available, not to mention how they can come together to create a completely personalized look. We are **showcasing brand new suppliers** with stunning beds and delicious bedding sets, as well as new pieces from the "tried and true". Finishing it off with custom designer draperies, specialty lighting, and truly unique accessories, Prairie Mountain Furniture is your **Destination for home furnishings and design**.

I know I'll see you all very soon. ;))
